

S4 QUICK START GUIDE

Read Me to Get Started Quickly...

LET'S GET STARTED...

1. Charge your S4 until the battery indicator light goes out (a full charge takes 3-4 hours).
2. Slide the power switch to the ON position.
3. The first time you use it, the S4 will go straight to pair mode. Follow the instructions to pair your phone.

CALLER NAME ANNOUNCE

Once pairing is complete your S4 will transfer the contacts from your phonebook so that it can announce caller names.

If your phone prompts you to allow a connection to the S4, you **must** select "YES" or "OK":

BlackBerry devices—select "Don't ask this again", then "YES":

Android devices—a notification appears at the top of the screen:

PAIR CODE: 0000

USE YOUR VOICE TO CONTROL YOUR S4

When the phone rings, say **Answer** or **Ignore**.

To use the voice commands:

1. Make sure the green handsfree trigger indicator light is on.
2. Say the handsfree trigger phrase: **BlueAnt Speak To Me**.
3. Wait for the S4 to ask you to **Say A Command**.
4. Say one of the commands loudly and clearly:
 - > Am I Connected?
 - > Call Back
 - > Cancel
 - > Check Battery
 - > Favorites
 - > Pair Me
 - > Phone Commands
 - > Redial
 - > Sensitivity Level
 - > LED Light
 - > Update Phonebook
 - > What Can I Say?

VOICE DIALING

Use the command **Phone Commands** to activate your phone's voice dial feature.

Your phone **must** support "voice dialing over Bluetooth".

This feature is supported by the iPhone 3GS (iOS 3.1+) and iPhone 4, most BlackBerry smartphones, and most Android devices running Android 2.2 and above.

Once you have activated the voice dial feature, **you are using your phone's voice recognition software**.

Please check your phone manual for help on getting the most out of this feature and to find out what commands your phone supports, as well as any limitations of your phone's voice recognition software.
